

Electric fence is an electronic perimeter protection system that prevents intrusion using a safe, short, sharp & a very unpleasant shock against cutting or climbing attempts while alerting the owner using local and remote audio visual alarms

A-1 Fence started its journey in 1998 in Mumbai, India. The company's foundations were built on to revolutionize the fencing market by providing high quality & innovative perimeter security solutions. A-1 Fence started off by manufacturing and exporting concertina and with persistence & commitment towards customer satisfaction, it experienced exponential growth in global markets with a wide range of product offerings. We strive hard to provide best solutions in perimeter security, demarcation, road safety, soil conservation and stabilization.
